MINDFUL & EFFICIENT

EPA WaterSense 2016 SUSTAINED EXCELLENCE

Saving water—one faucet at a time.

For years we have led the industry in sustainability by using environmentally responsible manufacturing processes and creating newer, greener technologies and products.

We have also partnered with the EPA WaterSense® Program to protect and conserve our water supply. We were honored to be named as the WaterSense Manufacturer Partner of the Year in 2011, 2013 and 2014—and as a WaterSense Sustained Excellence Award Winner in 2015 and 2016.

Water-Efficient Product.

Kitchen Faucets: flow rate of 1.5 gpm (5.7 L/min) or 1.8 gpm (6.8 L/min) versus Industry Standard ASME A112.18.1/ CSA B125.1 of 2.2 gpm (8.3 L/min).

Lavatory Faucets: flow rate of 1.2 gpm (4.5 L/min) versus Industry Standard ASME A112.18.1/ CSA B125.1 of 2.2 gpm (8.3 L/min).

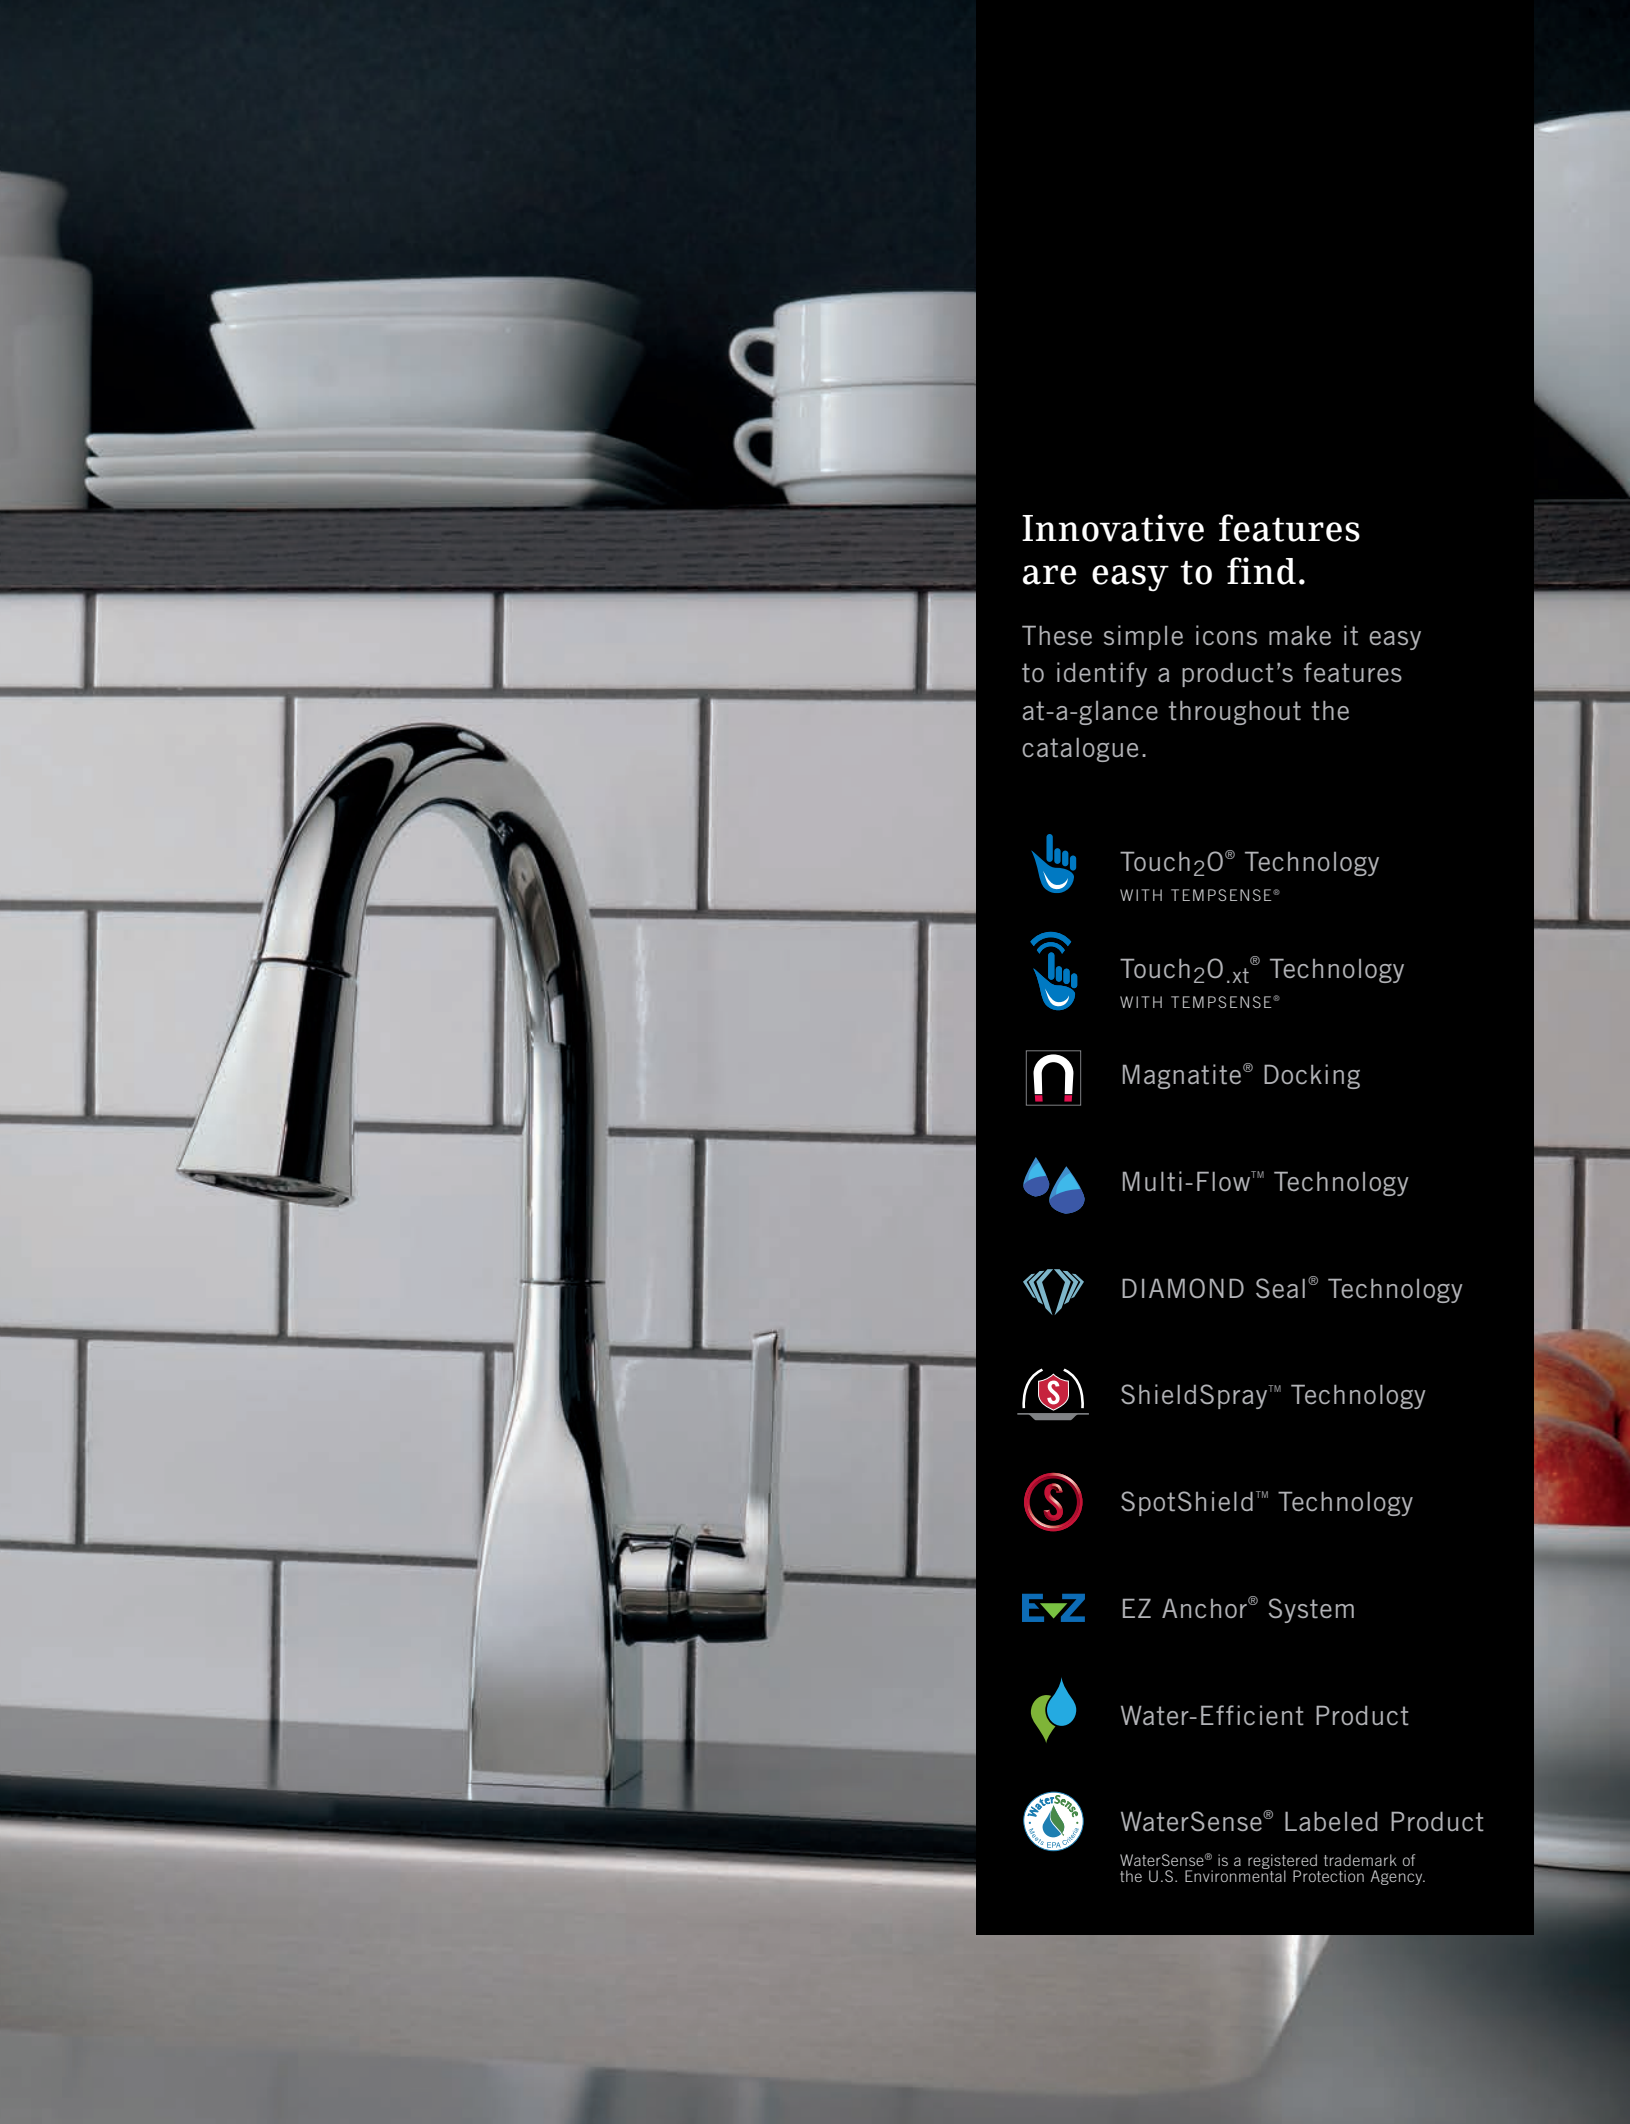
Showerheads and Handshowers: flow rate of 1.5 gpm (5.7 L/min) or 2.0 gpm (7.6 L/min) versus Industry Standard ASME A112.18.1/ CSA B125.1 of 2.5 gpm (9.5 L/min).

WaterSense® is a registered trademark of the U.S. Environmental Protection Agency.

There's something about water that attracts us all.

We splash, wash, swim and play in water. It brings a smile to our face, it relaxes us, it invigorates us, it washes away the dirt and stress.

At Delta Faucet, we take the daily routines and enhance them. We don't just deliver water through our products, we transform it so it can transform you. Enjoy.



Innovative features are easy to find.

These simple icons make it easy to identify a product's features at-a-glance throughout the catalogue.

KITCHEN

FUNCTIONAL & VERSATILE

We make working in the kitchen feel less like work.

We didn't set out to build just another kitchen faucet. We wanted to create faucets that met all of your demands in the kitchen and wouldn't miss a beat... ever. The results are faucets that provide years of convenience, durability, efficiency, reliability and, of course, beauty.

Touch$_2$O® Technology

Thoughtfully designed to make kitchen tasks easier. Touch it on or off with a simple touch of the spout or handle. The TempSense® LED changes colour to indicate the water temperature.

ShieldSpray™ Technology

With the innovative new ShieldSpray Technology, powerful cleaning doesn't have to make a bigger mess. A concentrated stream cleans with laser-like precision, while an innovative water shield reduces splatter.

SpotShield™ Technology

A finish that helps to keep your faucet cleaner, longer by resisting water spots and fingerprints. Available on select Delta® kitchen faucets.

DIAMOND Seal® Technology

Our patented DIAMOND Seal Technology combines a disc embedded with real diamonds with InnoFlex® PEX waterways, resulting in incredible durability and reliability.

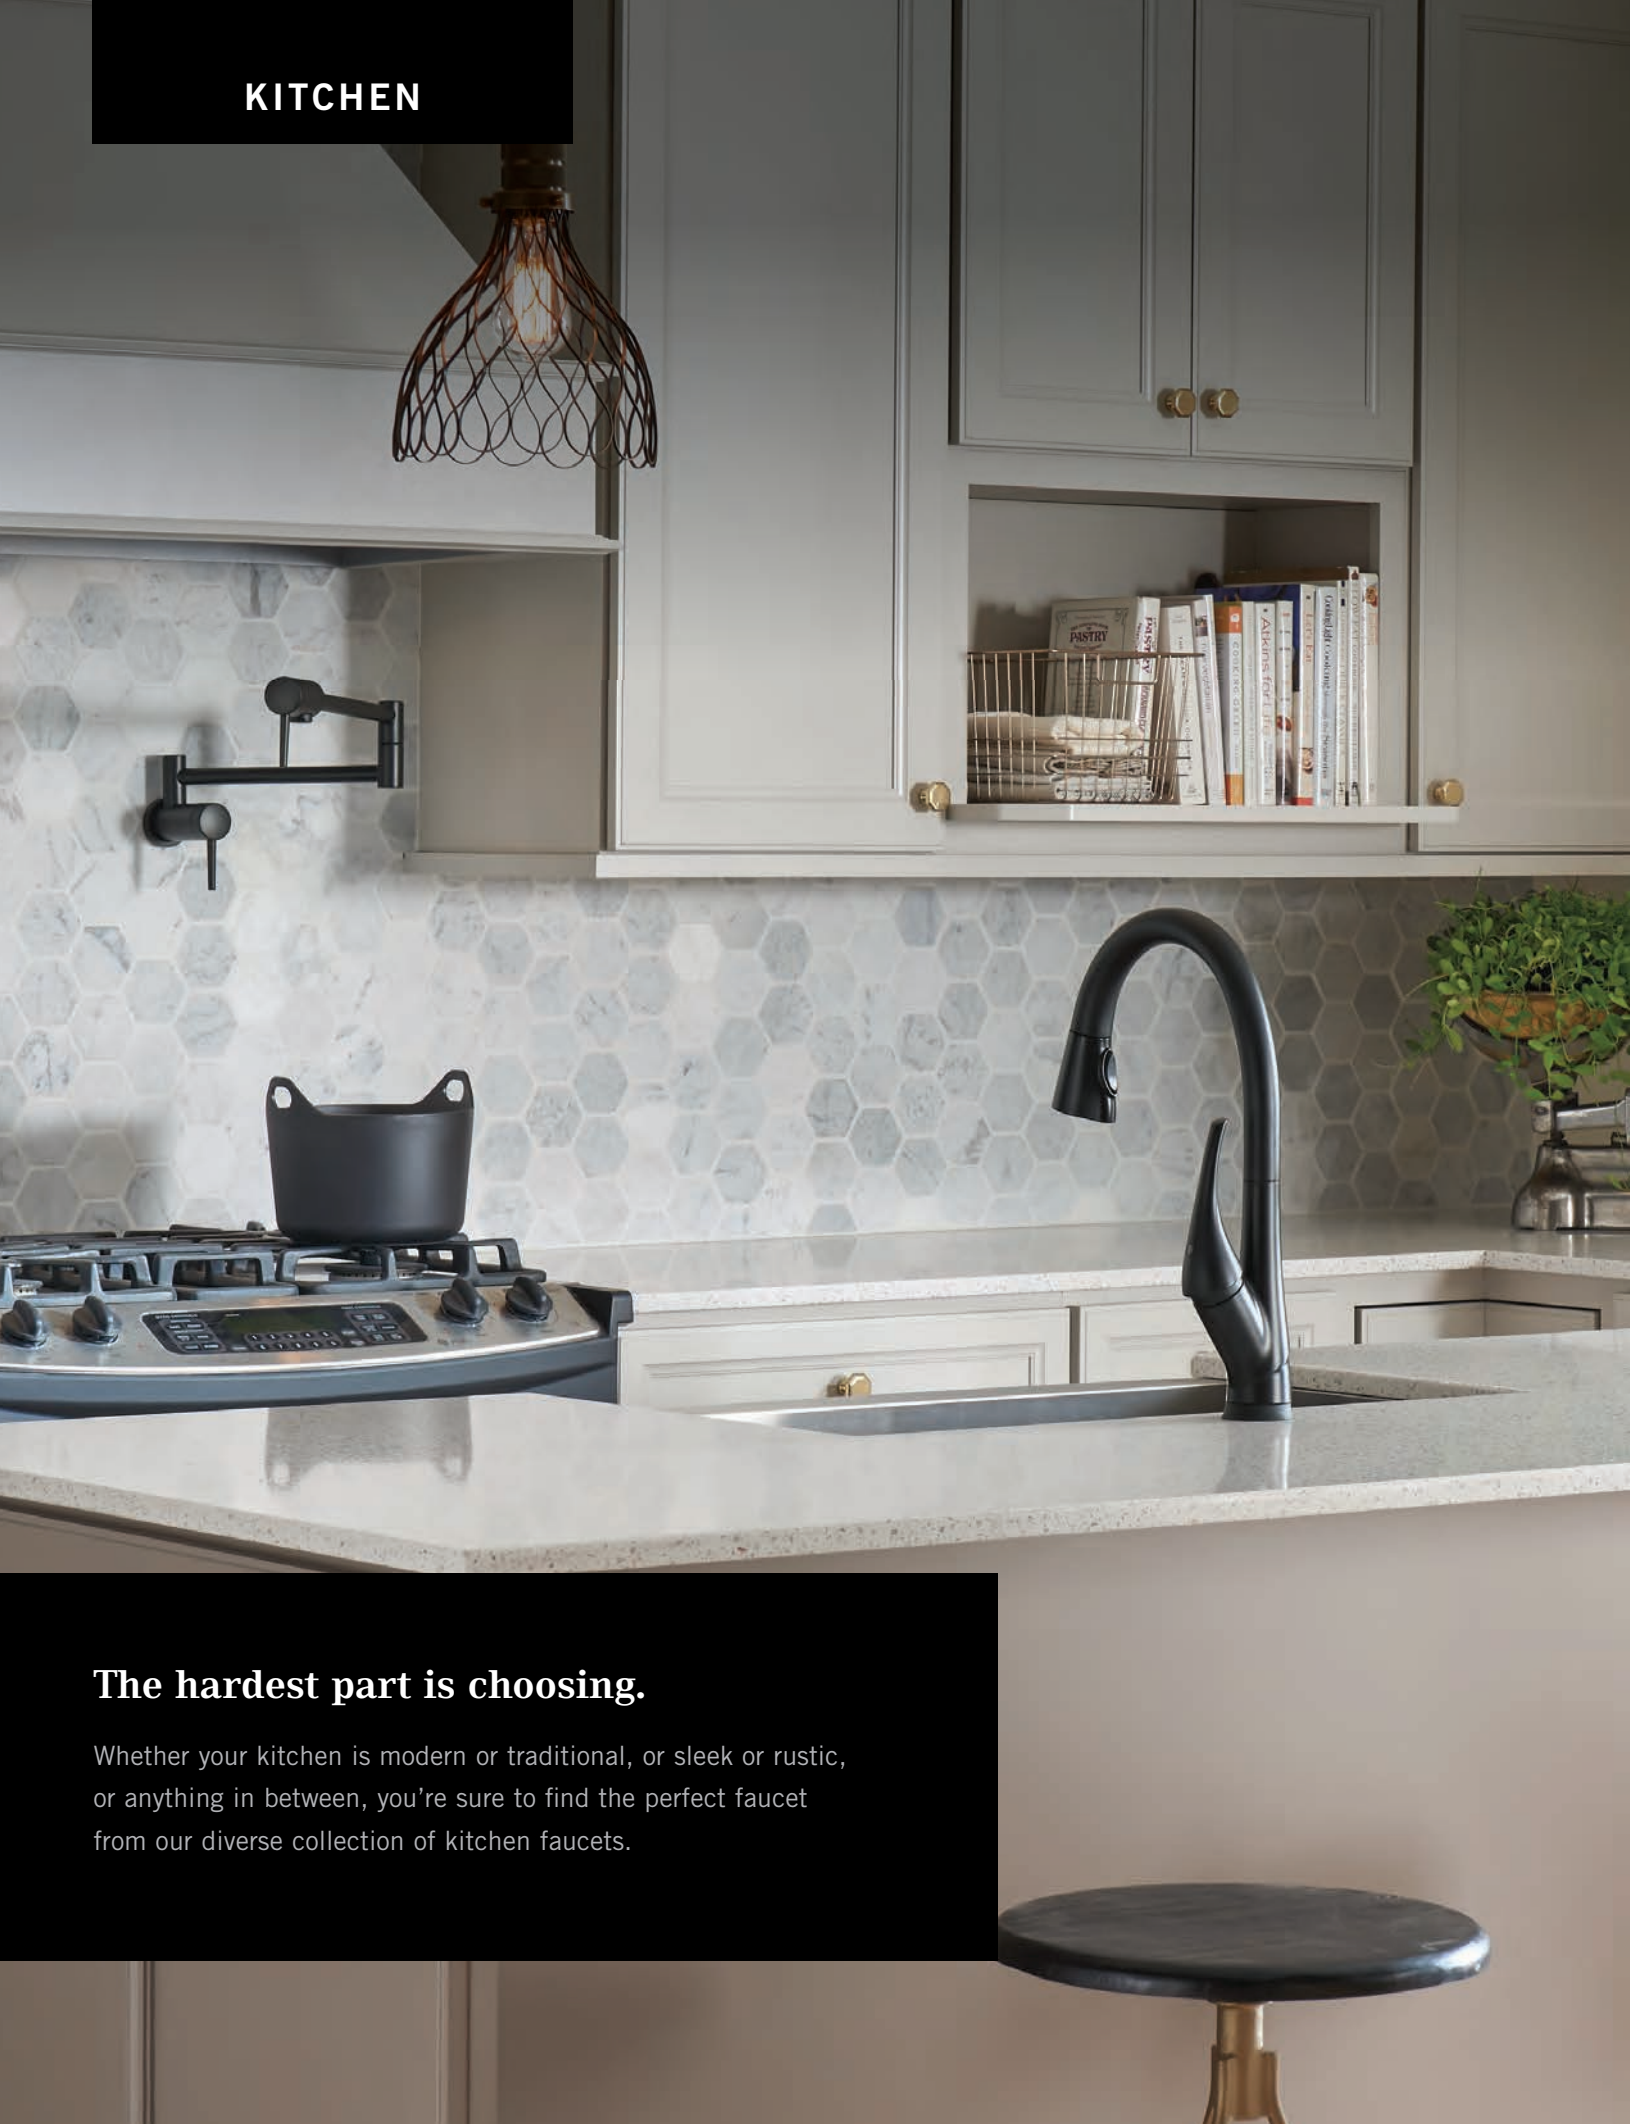
MagnaTite® Docking

This attractive feature keeps the pull-down spray wand firmly in place when not in use – thanks to the powerful integrated magnet.

Multi-Flow™ Technology

With a simple touch of the toggle, you can instantly increase the flow of water to more quickly fill the sink, pots, vases, or other large containers.

KITCHEN



The hardest part is choosing.

Whether your kitchen is modern or traditional, or sleek or rustic, or anything in between, you're sure to find the perfect faucet from our diverse collection of kitchen faucets.

TOUCH$_2$O® WITH TEMPSENSE®

Sometimes your hands could use a hand.

Thoughtfully designed to make kitchen tasks easier, Touch$_2$O Technology allows you to turn the faucet on and off with just a touch—anywhere on the faucet's spout or handle. It was the first innovation of its kind on the market, and now offers more styles, finishes and options than ever. Choose a Touch$_2$O faucet for your kitchen and discover how a touch can change everything.

BEAUTIFUL & DURABLE

The perfect combination of beauty and brains.

Some of our innovations you can see. Others you can feel. And some you never even know are there. But together, they make your bath experience more relaxing, refreshing, convenient and lasting.

PRODUCT INNOVATIONS

Touch$_2$O.xt® Technology

Touch it on. Touch it off. Or go completely hands-free. The choice is yours. Touch$_2$O Technology brings the convenience of touch to the bathroom, while Touch$_2$O.xt Technology turns your entire faucet into a sensor - allowing completely hands-free operation. Both technologies help keep your faucet clean and reduce water consumption.

DIAMOND Seal™ Technology

Our patented DIAMOND Seal Technology combines a disc embedded with real diamonds with InnoFlex® PEX waterways, resulting in incredible durability and reliability.

MultiChoice® Universal

Once the MultiChoice rough is installed, future shower function upgrades or style changes can easily be made without altering the plumbing behind the wall. The MultiChoice rough works with all types of shower valves for maximum flexibility.

H_2Okinetic® Technology

Using proprietary technology, the larger droplets formed in an H_2Okinetic shower move in a unique wave pattern, helping them retain their heat better and creating a warmer shower experience that feels like more water, without using more water.

BATH

Pick your pleasure.

With many collections and series to choose from, Delta® can turn your dream bath into a reality. From bold, modern looks to classic, traditional styles, Delta offers you plenty of choices to complete your personal sanctuary for peace and relaxation.

TOUCH$_2$O.XT® WITH TEMPSENSE®

Touch it on. Touch it off. Or go completely hands-free.

Touch$_2$O® Technology lets you start water flowing with a light tap anywhere on the spout or handle. Turn on hands-free Touch$_2$O.xt Technology and the entire faucet acts as a sensor, starting water flow automatically when hands get within four inches and stopping when hands are removed.

RELAXING & TRANSFORMING

Choose your perfect shower.

Whether you prefer to stand under a rainfall of warm water or be surrounded by perfectly positioned sprays, you're sure to find the right shower experience with Delta.® With virtually endless configurations of showerheads, handshowers, body jets and sprays, the only thing missing from your dream shower is you.

PRODUCT INNOVATIONS

H_2Okinetic® Technology

Why settle for an ordinary shower, when you can have an extraordinary experience? Using proprietary technology, the larger droplets formed in an H_2Okinetic shower move in a unique wave pattern, helping them retain their heat better and creating a warmer shower experience that feels like more water, without using more water.

In2ition®—
Two-in-One Shower

When the In2ition Shower is in its primary position, it functions like a regular showerhead. When you need to rinse from close range, simply remove the handshower. It's two showers in one beautifully convenient package.

Temp$_2$O® Technology

Handshowers, showerheads and shower valves equipped with Temp$_2$O let you know the temperature of your water before you get in. A built-in color indicator changes from blue to magenta to red—letting you know at a glance when the water is comfortable.

MultiChoice® Integrated Diverter

Combining style with flexibility. Separate controls on one trim eliminate the need for an additional diverter valve. Available in three popular style choices to coordinate with a wide variety of Delta® bath collections.

SHOWER

It’s more than a shower.

Nowhere is our commitment to innovation more visible than in the shower. Year after year, we’ve continually refined our showerheads and sprays, all in the name of providing you with a richer, more transformative showering experience.

Like changing the look of your shower? Our MultiChoice® Universal Valve lets you keep your options open.

Installing the Delta® MultiChoice rough means you can more easily change your shower trim or function in the future—without having to alter the plumbing behind the wall.

The MultiChoice rough works with all kinds of shower valves—whether you want to control just the temperature or keep temperature and volume controls separate for maximum flexibility.

SINGLE-FUNCTION PRESSURE-BALANCED—
Control Temperature

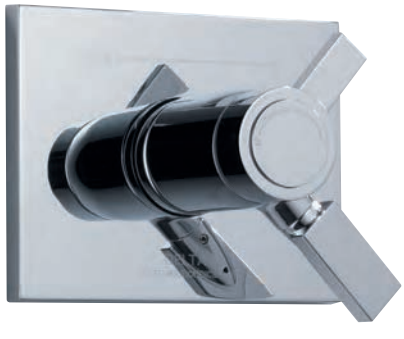
- Single control for temperature only
- Temperature is achieved by balancing the pressure of hot and cold water*
- Cartridge included with all Monitor® 13 and 14 Series shower trims

DUAL-FUNCTION PRESSURE-BALANCED—
Control Temperature & Volume

- Control temperature and volume independently
- Temperature is achieved by balancing the pressure of hot and cold water*
- Temperature can be set to remain consistent shower after shower
- Cartridge included with all Monitor 17 Series shower trims

DUAL-FUNCTION THERMOSTATIC—
Control Temperature & Volume

- Control temperature and volume independently
- Keeps precise water temperature (±3.6%) by measuring, monitoring, and automatically adjusting the water mix
- Temperature can be set to remain consistent shower after shower
- Cartridge included with all TempAssure® 17T Series shower trims

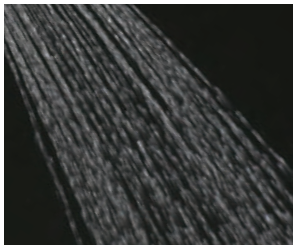


*When the inlet temperature limit stop is set correctly, and the water inlet temperature remains constant.

Going with the flow entails more decisions than you'd expect.

One shower experience does not fit all. That's why, in addition to shower styles, we provide plenty of water spray patterns to suit different needs. So you always get the exact shower experience you're looking for. Admire the looks and savor the experience.

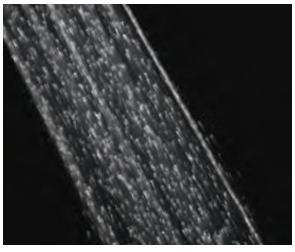
Look for these icons in the bath and shower sections to determine types of spray settings.



AF

Adjustable Full Body Spray (AF)

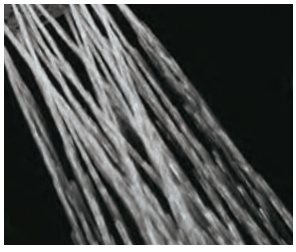
Adjust the water flow for a harder or softer spray.



AH_2O

Adjustable H_2Okinetic® Spray (AH_2O)

Allows for full flow or water-efficient spray.



CF

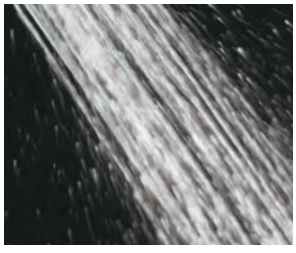
Crossing Full Spray (CF)

Consistent pressure from all spray holes with crossing streams for more coverage.

CFM

Crossing Full Spray with Massage (CFM)

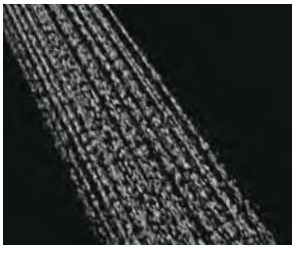
Coverage of crossing full spray with addition of a soothing, pulsating spray.



FM

Fast Massage (FM)

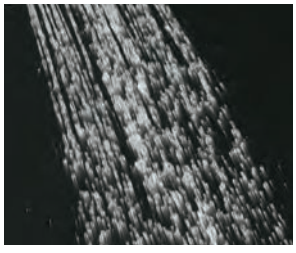
Strong, pulsating spray.



FB

Full Body Spray (FB)

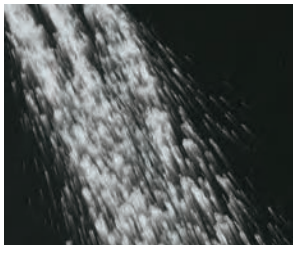
Consistent pressure from all spray holes.



FSM

Full Spray with Massage (FSM)

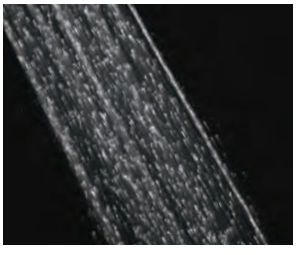
Consistent pressure from outside spray holes, plus soothing, pulsating spray.



HE

High-Efficiency Spray (HE)

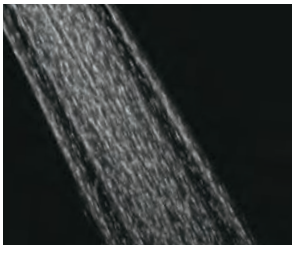
Provides full coverage and feels like greater water pressure at lower flow rates.



H_2O

H_2Okinetic Spray (H_2O)

Large drops and dense, wide spray pattern create a blanket of water.



H_2OM

H_2Okinetic Spray with Massage (H_2OM)

Large drops and dense spray pattern, plus a pulsating spray.

M

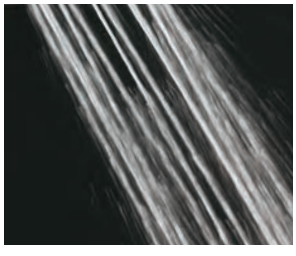
Massage Spray (M)

Soothing, pulsating spray.

P

Pause (P)

Reduces water flow to a trickle.



SR

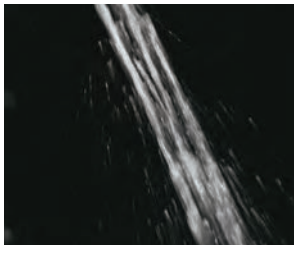
Shampoo Rinsing Spray (SR)

Strong, full body spray.

SRM

Shampoo Rinsing with Massage (SRM)

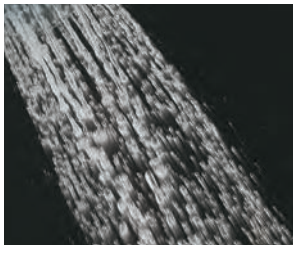
Strong, full body spray plus a pulsating spray.



SM

Slow Massage (SM)

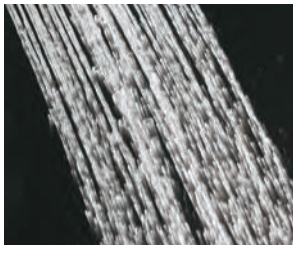
Soothing, pulsating spray.



SD

Soft Drench Spray (SD)

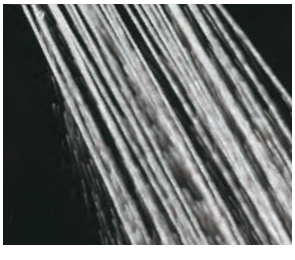
Soft, aerated, soaking flow of water.



SDF

Soft Drench with Full Spray (SDF)

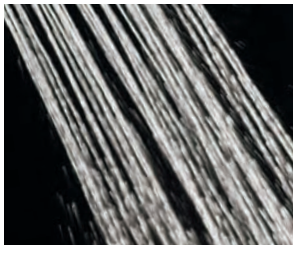
Soft, aerated, soaking flow of water with additional sprays to provide fuller coverage.



SDM

Soft Drench with Massage (SDM)

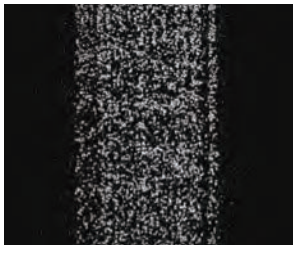
Drenching full spray plus a pulsating spray.



SF

Soft Full Spray (SF)

Soft, consistent pressure from all spray holes.



SRS

Soft Rain Spray (SRS)

Gentle fall of water that feels like a soft, spring rain.

INTEGRATED DIVERTERS

MultiChoice® Integrated Diverters combine style with flexibility. Separate controls on one trim eliminate the need for an additional diverter valve. Available in three popular style choices to coordinate with a wide variety of Delta® bath collections.
